

JULIAN SHAW

Full Stack Developer | AI & Agentic Systems Engineer | Control Systems Engineer

70 Attlee Close, Thornton Heath, CR7 7FA, United Kingdom | +44 7448 1547681 | julianshaw2000@gmail.com | julianshaw2000.com

PROFESSIONAL SUMMARY

Senior Full Stack Engineer with 20+ years of experience spanning Angular/.NET SaaS platforms, secure multi-tenant architectures, and — most recently — Claude-powered agentic AI development. Currently CTO / Lead Engineer at Auditraks, a B2B regulatory-compliance SaaS for 3TG mineral supply chains, where I build Model Context Protocol (MCP) servers that expose business platforms to AI assistants. An early adopter and power user of Claude and Cursor IDE for AI-assisted software development, using LLMs for architectural reasoning, automated refactoring, agentic workflow orchestration, and test generation to ship production-grade software faster.

CLAUDE DEVELOPMENT, AGENTIC AI & AUTOMATION SKILLS

Claude / AI-Assisted Development: Claude (Anthropic) • Cursor IDE • Prompt engineering • AI pair-programming • Automated refactoring & test generation • Claude-driven legal document analysis

Agentic AI & Orchestration: Model Context Protocol (MCP) server development • CrewAI • LangGraph • AutoGen • OpenAI Agents SDK • LangChain

Retrieval & Data: RAG pipelines • Vector databases (Pinecone, Chroma) • Natural-language query interfaces

Workflow Automation: n8n workflow automation • Home Assistant automation • Python trading-bot automation (MT4 / cTrader) • Voice-to-text automation

Applied AI Projects: Auditraks MCP servers (55 AI tools) for custody tracking, risk assessment & churn prediction • AI-generated CV summaries & action plans • AI-driven legal document review platform (Legal-JM)

CORE TECHNICAL SKILLS

Frontend: Angular 21 • TypeScript • @angular/localize (i18n / RTL)

Backend: .NET 9/10 • C# • NestJS • MediatR CQRS • Python

Data & Cloud: SQL Server • PostgreSQL • Azure • Docker • Render

Platform & Security: Multi-tenancy • RBAC • Microsoft Entra External ID (MSAL + PKCE) • Stripe billing • CI/CD

Other: Flutter • Firebase • Supabase • MapLibre

PROFESSIONAL EXPERIENCE

CTO / Lead Engineer — Auditraks — 3TG Supply-Chain Compliance SaaS	Nov 2025 – Present
- Architected a multi-tenant B2B compliance platform for tungsten, tin, tantalum & gold (3TG) supply chains, covering RMAP, OECD DDG, SEC Form SD and DFARS. - Built the full stack: a .NET 9/10 vertical-slice API (MediatR CQRS, Result pattern) and an Angular 21 SPA with Supplier, Buyer and Admin portals. - Delivered tamper-evident custody tracking (SHA-256 hash chain), Material Passports, Audit Dossiers and Digital Product Passports. - Implemented Microsoft Entra External ID (MSAL + PKCE) authentication and Stripe billing. - Shipped two MCP servers (55 AI tools) exposing the platform to AI assistants, including AI risk assessment, churn prediction and natural-language queries. - Deployed on Azure and Render. (auditraks.com)	
Lead Engineer — Arab Africa Global Business Summit (AAGBSE)	2026
- Built an Angular 21 SaaS event & registration platform designed to scale to 20,000+ users. - Delivered multi-tier registration (VIP, sponsors, delegates) with Stripe payments and admin dashboards on a .NET backend. - Delivered a fully trilingual experience (English / Arabic / French) with @angular/localize, including Arabic RTL support. (arabafribagbse.com)	

Product Engineer — Job Seekers Progress Notes App*Jan 2026 – Feb 2026*

- Built a job-seeker tracking and coaching tool with voice-to-text for real-time session capture (Angular 21).
- Built AI features to auto-generate CV summaries and action plans. (qaren.co.uk)

Founder / Lead Engineer — PropKat / PropertyAI*Nov 2025 – Jan 2026*

- Architected a UK property and maintenance management SaaS with multi-tenant isolation.
- Built Angular and .NET API with PostgreSQL; integrated Stripe for subscription lifecycle management. (propkat.com)

Founder / Lead Engineer — CityHistoryWalks*Jul 2024 – Present*

- Developed a self-guided city walking tour PWA with an interactive map-based experience using MapLibre and Supabase.
- Implemented Stripe-gated premium content with location-aware tour triggers (Angular 21). (cityhistorywalks.com)

Project — jaPOS*Jun 2025 – Aug 2025*

- Developed a Windows retail POS system with Flutter.

Founder / Lead Engineer — Legal-JM*Jan 2025 – Aug 2025*

- Designed ingestion and proofreading workflows for an AI-driven legal document review platform.
- Engineered Claude prompts for structured legal text analysis and RAG-based document automation.

Developer — Carib Condominiums Gate Management System*Aug 2024 – Present*

- Built a gate management system using Angular, Firebase, Python, and Home Assistant automation.
- Implemented real-time gate monitoring, visitor logging, and security camera integrations.

Contract Developer — Real Digital International*Jan 2023 – Jun 2023*

- Built a stock tracking system with barcode scanning (Angular/C#), reducing inventory discrepancies by 25%.

Lead Developer — Zeolite Technology*2018 – Aug 2021*

- Built property rental systems, FX trading bots, and Python stock trading bots.
- Built automation tooling and maintained safety systems for Aramco.

Application Engineer — Saudi Aramco*2008 – 2018*

- Delivered enterprise systems for 25,000+ users using ASP.NET MVC and SQL Server.
- Delivered the Project Safety Management System and internal tooling at scale.

CONTROL SYSTEMS ENGINEERING EXPERIENCE

Systems: Honeywell DCS • ABB DCS • PLC Programming • SCADA**Core Skills:** QA / ISO 9001 • GAMP Compliance • Process Automation • Lean Sigma**Control Systems Estimate Engineer — Saudi Aramco***2008 – 2018*

- Maintained technical specifications for process control systems; developed internal estimating tools and managed safety management systems.

Site Automation Engineer — GlaxoSmithKline (UK)*Jan 2003 – Mar 2006*

- Coordinated Lean Sigma strategies; ensured GAMP compliance for DCS projects; implemented QA protocols for new installations.

Project Engineer — Honeywell Control Systems*Sep 2002 – Dec 2002*

- Designed DCS graphics for an oil refinery upgrade; developed QA processes and enforced coding standards.

EDUCATION & CERTIFICATIONS

MSc Information Technology — University of Liverpool**BSc Computer Science — University of Massachusetts, USA**

- Agile Expert Certified (AEC)
- Certified SCRUM Master (CSM)
- IBM Generative AI (2023)
- ISO 9001 Quality Management
